

```
graph BT; A[ral::io::gdf_data_provider] --> B[ral::io::data_provider];
```

Diagram illustrating a relationship between two classes:

- The top class is `ral::io::data_provider`.
- The bottom class is `ral::io::gdf_data_provider`.
- A blue arrow points from `ral::io::gdf_data_provider` up to `ral::io::data_provider`, indicating inheritance or specialization.

`ral::io::gdf_data_provider`
